Dear Dr. Dhanya,

Congratulations on your selection for the **Water Advanced Research and Innovation (WARI) Fellowship Program**! The fellowship is supported by the Department of Science and Technology, Govt. of India, the University of Nebraska-Lincoln (UNL), the Daugherty Water for Food Institute (DWFI) and the Indo-US Science and Technology Forum (IUSSTF).

The objectives of this program are to provide the best and brightest Indian scientists exposure and access to world-class research facilities at the University of Nebraska-Lincoln and the Daugherty Water for Food Institute; promote research and capacity building in the area of water; and pave the way for the next generation scientists and technologists from India to interact with their American peers, thus helping to build long-term R&D linkages and collaborations.
The expenditure should be incurred strictly in accordance to the Terms & Conditions governing the WARI Fellowship (please refer to the enclosed document). It is expected that due recognition to DST, UNL, DWFI and IUSSTF is made in all scientific publications, presentations etc. connected with this Fellowship.

Kindly acknowledge the receipt of this letter through a signed acceptance (page 4 of Terms & Conditions document). If you need any further information, please feel free to contact my colleague Dr. Chaitali Bhattacharya and Ms. Monika Madan at water.fellowship@indousstf.org.

I wish you an academically rewarding experience through this prestigious fellowship.

Best regards,

(Rajiv K. Tayal)

Dr. Dhanya CT
Associate Professor
