Tender Documents may be downloaded from Central Public Procurement Portal [http://eprocure.gov.in/eprocure/app](http://eprocure.gov.in/eprocure/app). Aspiring Bidders who have not enrolled / registered in e-procurement should enroll / register before participating through the website [http://eprocure.gov.in/eprocure/app](http://eprocure.gov.in/eprocure/app). The portal enrolment is free of cost. Bidders are advised to go through instructions provided at ‘Instructions for online Bid Submission’. Tenderers can access tender documents on the website (For searching in the NIC site, kindly go to Tender Search option and type ‘IIT’). Thereafter, Click on “GO” button to view all IIT Delhi tenders). Select the appropriate tender and fill them with all relevant information and submit the completed tender document online on the website [http://eprocure.gov.in/eprocure/app](http://eprocure.gov.in/eprocure/app) as per the schedule given in the next page.

No manual bids will be accepted. All quotation (both Technical and Financial should be submitted in the E-procurement portal).

Chairman Purchase Committee
(Buyer Member)
Instructions for Online Bid Submission/ ऑनलाइन बॉली (बिड) के लिए निर्देश:

As per the directives of Department of Expenditure, this tender document has been published on the Central Public Procurement Portal (URL:http://eprocure.gov.in/eprocure/app). The bidders are required to submit soft copies of their bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

More information useful for submitting online bids on the CPP Portal may be obtained at:
http://eprocure.gov.in/eprocure/app

REGISTRATION

1) Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL:http://eprocure.gov.in/eprocure/app) by clicking on the link “Click here to Enroll”. Enrolment on the CPP Portal is free of charge.

2) As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.

3) Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.

4) Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (Class II or Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g. Sify / TCS / nCode / eMudhra etc.), with their profile.

5) Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSCs to others which may lead to misuse.

6) Bidder then logs in to the site through the secured log-in by entering their user ID / password and the password of the DSC / eToken.
There are various search options built in the CPP Portal, to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, organization name, location, date, value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as organization name, form of contract, location, date, other keywords etc. to search for a tender published on the CPP Portal.

Once the bidders have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective ‘My Tenders’ folder. This would enable the CPP Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.

The bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification / help from the Helpdesk.

Preparation of Bids / बोली (विद्य) की ठीकानी

1) Bidder should take into account any corrigendum published on the tender document before submitting their bids.

2) Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.

3) Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS / RAR / DWF formats. Bid documents may be scanned with 100 dpi with black and white option.

4) To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use “My
SUBMISSION OF BIDS/ बॉली (बिड) का जमा करना

1) Bidder should log into the site well in advance for bid submission so that he/she upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.

बॉलीदाता को बॉली प्रस्तुति के लिए अच्छी तरह से साइट पर लॉग इन करना चाहिए ताकि वह समय पर बॉली अपलोड कर सके या फिर बॉली प्रस्तुत करने के समय से पहले। अन्य मुद्दों का कारण किसी भी देरी के लिए बॉलीदाता जिम्मेदार होगा।

2) The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.

बॉलीदाता को निबिदा दस्तावेज में दर्शाए अनुसार एक-एक करके आवश्यक बॉली दस्तावेजों को डिजिटल हस्ताक्षर और अपलोड करना होगा।

3) Bidder has to select the payment option as “on-line” to pay the tender fee / EMD as applicable and enter details of the instrument. Whenever, EMD / Tender fees is sought, bidders need to pay the tender fee and EMD separately on-line through RTGS (Refer to Schedule, Page No.2).

बॉलीदाता को निबिदा शुल्क / ईएमडी की भुगतान के लिए "ऑन लाइन" के रूप में भुगतान विकल्प चुनना होगा और उपकरण का विवरण दर्ज करना होगा। जब भी, ईएमडी / निबिदा शुल्क की मांग की जाती है, बॉलीदाताओं को टेंडर शुल्क और ईएमडी अन्य-अन्य आरटीजीएस के माध्यम से ऑन लाइन पर भुगतान करने की आवश्यकता होती है (अनुपीड़ित, पेज नं. 2 देखें)।

4) A standard BoQ format has been provided with the tender document to be filled by all the bidders. Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. Bidders are required to download the BoQ file, open it and complete the white colored (unprotected) cells with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BoQ file is found to be modified by the bidder, the bid will be rejected.

एक मानक BoQ प्रारूप को सभी बॉलीदाताओं द्वारा भरने के लिए निबिदा दस्तावेज प्रदान किया गया है। बॉलीदाताओं को इस बात का ध्यान रखना चाहिए कि उन्हें आवश्यक प्रारूप में अपनी वित्तीय बॉली जमा करनी चाहिए और कोई अन्य प्रारूप स्वीकार करना नहीं है। बॉलीदाताओं को BoQ फाइल को डाउनलोड करने, इसे खोलने और अपने संबंधित वित्तीय उद्धरण और अन्य विवरण (जैसे बॉलीदाता का नाम) के साथ सफेद रंगीन (अनुपीड़ित) कोशिकाओं को पूरा करना आवश्यक है। कोई भी अन्य कद नहीं बदला जाना चाहिए। एक बार विवरण पूरा हो जाने पर, बॉलीदाता को इसे सहजता होगा और इसे ऑनलाइन जमा करना होगा, जिसे फाइल नाम बदलना। यदि BOQ फाइल को बॉलीदाता द्वारा संबंधित किया गया है, तो बॉली को खारिज कर दिया जाएगा।

OR/ या

In some cases Financial Bids can be submitted in PDF format as well (in lieu of BOQ).

कुछ मामलों में वित्तीय बॉलियां पीडीएफ प्रारूप में भी जमा की जा सकती हैं (BOQ के बदले)
5) The server time (which is displayed on the bidders’ dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.

6) All the documents being submitted by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128 bit encryption technology. Data storage encryption of sensitive fields is done.

7) The uploaded tender documents become readable only after the tender opening by the authorized bid openers.

8) Upon the successful and timely submission of bids, the portal will give a successful bid submission message & a bid summary will be displayed with the bid no. and the date & time of submission of the bid with all other relevant details.

9) Kindly add scanned PDF of all relevant documents in a single PDF file of compliance sheet.

ASSISTANCE TO BIDDERS / बोलीदाताओं को सहायता

1) Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.

2) Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24x7 CPP Portal Helpdesk. The contact number for the helpdesk is 1800 233 7315.

General Instructions to the Bidders / बोलीदाताओं के लिए सामान्य निर्देश

1) The tenders will be received online through portal http://eprocure.gov.in/eprocure/app. In the Technical Bids, the bidders are required to upload all the documents in .pdf format.

2) Possession of a Valid Class II/III Digital Signature Certificate (DSC) in the form of smart card/e-token in the company’s name is a prerequisite for registration and participating in the bid submission activities
through https://eprocure.gov.in/eprocure/app. Digital Signature Certificates can be obtained from the authorized certifying agencies, details of which are available in the web site https://eprocure.gov.in/eprocure/app under the link “Information about DSC”.

3) Tenderer are advised to follow the instructions provided in the ‘Instructions to the Tenderer for the e-submission of the bids online through the Central Public Procurement Portal for e Procurement at https://eprocure.gov.in/eprocure/app.

रिक्विसिटियों को सलाह दी जाती है कि वे निविदकार को निर्देश दिए गए हों ताकि ई-प्रोक्योरमेंट के लिए सेंट्रल पब्लिक प्रोक्योरमेंट पोर्टल के जरिए https://eprocure.gov.in/eprocure/app पर ऑनलाइन निविदाएं जमा कर सकें.
NOTICE INVITING QUOTATIONS

Dated: 08/03/2019

Subject : Purchase of

1. 5 kWp Solar PV array having DC bus voltage $V_{DC} = 450$ V with DC-DC booster (Boost Converter) and inverter of 5 kVA for single phase grid connected system.

* We need two terminals from the Solar PV array up to the PG Machine Laboratory for experiment purpose (approx. length is 150 m).

Invitation for Tender Offers

Indian Institute of Technology Delhi invites online Bids (Technical bid and Commercial bid) from eligible and experienced OEM (Original Equipment Manufacturer) OR OEM Authorized Dealer for supply, installation & integration of 5 kWp Grid Connected Solar PV arrays with (warranty period as stated at page #1 of this tender) on site comprehensive warranty from the date of receipt of the material as per terms & conditions specified in the tender document, which is available on CPP Portal [http://eprocure.gov.in/eprocure/app](http://eprocure.gov.in/eprocure/app)

TECHNICAL SPECIFICATION:

Solar Photo Voltaic Modules:

i) Solar photo voltaic module array shall consist of high efficiency Solar Modules utilizing Poly Crystalline high power Sillicon Solar Photovoltaic cells.

ii) Solar photovoltaic module shall NOT be LESS THAN 320 Wp (Max power sustained for more than 30 minutes) minimum with cells efficiency > 16% and module efficiency 14.5%.

iii) Sample modules and production processes employed in the manufacture of the offered module shall be in accordance with the requirements of IEC 61215 Ed 2, IEC61730 Part 1 & 2.

iv) The module frame must be made of corrosion resistant materials, which is electrolytically compatible with the structural material used for mounting the module.

v) Module Junction box (weather resistant shall be designed for long life out door operation in harsh environment.

vi) Degradation of power generated should not be exceeding 20% of the min. rated power over the 25 year period.

vii) Efficiency of solar PV system shall be guaranteed to 90% for up to 12 years & 80% for up to 25 years.

Approved Make:
**Mechanical Features:**

- Anodized Aluminum Frame shall be provided around the module.
- The module shall be encapsulated with Ethyl Vinyl Acetate (EVA).
- ABS plastic terminal box shall be provided for the module output termination with gasket to prevent water moisture.
- The module shall be resistant to water, abrasion, hail impact, humidity & other environment factor for the worst situation at site.

**Marking:**

Each module shall carry the following clear indelible marking:

- Name, monogram of manufacturer
- Type or module number
- Module serial number
- Polarity of terminals
- Date and place of manufacture.

**Approved Make:**

SMA/KACO/XENTRAX/OPS/PPS/DB POWER/Equivalent approved

**Specifications of the inverter/PCU:**

Make: GROWATT/ZEVER/SUNGROW/ SMA/KACO/XENTRAX/OPS/PPS/DB POWER/Equivalent approved
Specifications of the Booster:
A DC-DC voltage booster (boost converter) is needed to maintain the output voltage of 450 V along with tracking the maximum power point. Efficiency must be greater than 90%.
Make: STATCON ENERGIAA/ Equivalent approved

Cable and Accessories:

a) Cables should be FRLS PVC insulated copper conductor armoured MV Cables up to 1100 Volts grade as per IS: 1554/armoured PVC sheathed cables. Cable should be bright annealed 99% pure copper conductor, conductor shall be of electrolytic copper conforming to IS: 8130.

b) DC cables should be 1C x 4 sq mm flexible copper class-5, TUV certified solar cable make poly core.

c) Minimum size of the cable as following:

i) Array to junction box / PCU: 1 core x 4/6 sq mm stranded copper cables.

ii) PCU to LT AC DB and metering panel: 2 core x 16 sq mm stranded copper XLPE armoured cables.

iii) LTACDB and metering panel to main Grid DB: 3.5/4 core XLPE as per requirement stranded armoured cable.

Cable shall be laid on prefabricated GI cable trays and through suitable HD PE pipes.

Earthing and protection:

i) The PV array structure shall be grounded properly using adequate (min 3 Nos.) number of connecting system. All metal casing / shielding of the plant shall be thoroughly grounded to ensure safety of the power plant. Earthing resistance shall be less than 5.0 ohms for individual anode and less than 1.0 Ohms for Grid in line with IE rules and as per IS:3043 code of practice for earthing.

ii) GI strip of minimum size 5mm X 25mm shall be used for carrying earthing connection.

iii) Proper earthing pit shall be made at locations approved by IIT Delhi.

Lightening Arrester:
To protect the system including use of Metal Oxide Varistors from heavy surge of lightens a suitable arrester to be provided with separate earthing system, so that induced transient find an alternate route to earth. Protection shall meet the safety rules.

SPV Panels Cleaning Facilities:
Bidder shall provide dusting & Water washing facilities, all necessary accessories for dusting shall be provided. Bidder shall also extend water line for the roof top of single storied building and shall provide necessary rubber hose etc for washing the panels.

LT Panel & AC Distribution Board:
Power conditioning unit converts DC energy produced by solar array to AC energy. The AC power output of the inverter shall be fed to the AC Distribution Board (metering panel & isolation panel) which also houses energy meter. The 230 V AC +-10% output of the isolation panel is fed to the building load. AC energy is then synchronized with the grid power is fed into the system on continuous basis.
**GENERAL:**

i) The scope of these specifications includes all civil works connected with the construction of buildings and other facilities described in the scope of work under special conditions of contract. CPWD specifications and relevant code may be followed for any work not covered under these specifications.

ii) All materials which may be used in the work shall be of standard quality manufactured by renowned concerns conforming to Indian Standard Specifications (Latest Edition) or equivalent and shall bear I.S.I. mark as far as possible unless otherwise approved by the PFC.

iii) The contractor shall get all materials approved by the Engineer-in-Charge prior to procurement of the same in bulk and also before using in the works. For all major items/ materials used in the works (irrespective of the brand of material or proven source) necessary laboratory tests shall be conducted/ or test certificates from the manufacture shall be furnished by the contractor to ensure conformation of the material to specifications. The tests shall be conducted as directed by Engineer-in-Charge and in approved laboratory(s). The costs of all tests shall be borne by contractor. Additionally, for testing of materials like concrete, bricks, aggregates etc. which require continuous testing, contractor at his own cost and initiative, shall arrange for facilities for testing at site itself to ensure proper quality control at work site. Frequency of these testing shall be as per standard practice being followed in CPWD or as directed by PFC. A separate register shall be maintained indicating the details tests conducted reports from laboratories and tests conducted/ result at work site.

iv) The Engineer-in-Charge shall have the right to determine whether all or any of the materials are suitable for incorporation in the work. Any material procured or brought to site and not conforming to specifications and not upto the satisfaction of the Engineer-in-Charge shall be rejected and the contractor shall have to remove the same immediately from site at his own expenses and without any claim for comprehensive due to such rejection.

**PLAIN CONCRETE WORK:**
Providing and laying cement concrete, grade of mix 1:1.5:3 (1 cement : 1.5 coarse sand : 3 Graded stone aggregate 20mm nominal size), in foundation floors, bed of drains, including ramming, de-watering, shuttering, shoring, strutting, curing etc. Complete in all respects inclusive of cost of all labour, materials, tools, tackless etc. as per drawings specifications and direction of Site Engineer.

**REINFORCED CEMENT CONCRETE:**
Providing and laying structure reinforce cement concrete work (1:5:3) conforming to IS :456 (1 cement : 1.5 coarse sand : 3 graded stone aggregate 20mm nominal size) sat all height & depth for construction beams. Columns, staircase chajja, roof slabs, facia, canopies, fins porch, water tank etc. including providing centering, shuttering, staging scaffolding form work etc compacting with mechanical vibrator, curing etc. complete in all respects inclusive of cost of all labour, materials.

**BRICK WORK:**
Brick work with bricks of class designation 50 in cement mortar 1:6 (1cement : 6 coarse sand) at all heights and depths laid to proper position line, level as per the drawings and specifications including providing necessary scaffolding, staging, raking out of joints, tackles etc. as per drawings, specifications and direction of Site Engineer.

**Structural Steel Work:**
All steel members of the proposed structure for SPV system to be galvanized minimum 80 Microns.
Steel:
Mild steel reinforcement for cement concrete work shall conform to IS:1786 latest edition and shall be grade Fe500/415 as mentioned in the item description. The bars shall be procured from reputed / established rolling mills such as TATA Steel, SAIL, RINL or any other equivalent approved supplier.

HCR/CRS Bars:
HCR (high corrosion resistant) corrosion resistant bars shall conform to IS-1786 latest edition and shall have a grade of Fe500. The bars shall be procured from reputed / established rolling mills such as SAIL, RINL, TATA.

Structural Steel:
Structural steel sections & plates shall conform to Grade A of IS 2062 (latest edition). Steel shall be free from all grease, oil, paint, loose mill scale and rust and shall be free from all defects mentioned in IS 2062 and shall have a smooth uniform finished surface.
Contractor shall invariably produce test certificate from the manufacturer certifying the quality and strength of the steel to conform to the requirement of the aforesaid Indian Standards. In absence of such test certificate from the manufacture, test shall be carried out in a test House/ Laboratory or University as approved by the Engineer-in-charge and cost of such tests shall be borne by the contractor. Tests shall be carried out as per IS: 1599, 1608 and 1786 (latest edition).

Tubular Steel Truss:
Steel tubes for tubular truss shall conform to the latest editions of IS: 1161. Tubes shall be clean finished and reasonably free from scale. They shall be free from cracks, surface flaws, laminations and other defects. The truss shall be as per drawing. Each truss may have two or three parts which shall be assembled properly and erected over columns. Contractor shall handle the truss carefully and observe all necessary precautions during erection of truss over columns. If any damage is caused during erection, the same shall be made good by the Contractor at his own cost. The truss shall be fixed to the columns with anchor plate, anchor bolts, etc. properly grouted into the columns as per drawing. Tubular purlins and bracing having splices welded at the ends, shall be assembled an erected at the locations as shown in drawings and directed by the Site Engineer.
All reinforcement bars shall be clean and free from dirt, oil, paints, grease, mill scales and loose rust. Bars available in coil shall be uncoiled and properly straightened to the satisfaction of the Engineer-in-charge at no extra cost to the owner.

FINISHING:
Providing 15 mm thick plaster to internal & external walls at all heights/depths with cement mortar 1:6 (1cement : 6 fine sand) finished smooth / rough including raking out joints, rounding off and chamfering corners, making drip course molding, roughening of brick surface, curing for etc. complete as per specifications.
Supplying and applying two coats of acrylic washable distemper f approved brand, of required shade over a coat of distemper primer over plastered wall surface, including preparation of surface with putt, sand papering, scaffolding etc. complete in all respects inclusive of cost of all labour, materials tools tackles etc. as per manufacturer’s recommendations, specification and direction of Site Engineer.

A complete set of tender documents* may be Download by prospective bidder free of cost from the website http://eprocure.gov.in/eprocure/app. Bidder has to make payment of requisite fees (i.e. Tender fees (if any) and EMD) online through RTGS/NEFT only.
**Terms & Conditions Details**

<table>
<thead>
<tr>
<th>Sl. No.</th>
<th>Specification</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td><strong>Due date</strong>: The tender has to be submitted on-line before the due date. The offers received after the due date and time will not be considered. No manual bids will be considered.</td>
</tr>
</tbody>
</table>
| 2.      | **Preparation of Bids**: The offer/bid should be submitted in two bid systems (i.e.) Technical bid and financial bid. The technical bid should consist of all technical details along with commercial terms and conditions. Financial bid should indicate item wise price for the items mentioned in the technical bid in the given format i.e BOQ_XXXX.  
OR  
Financial Bids to be submitted in PDF format.  
The Technical bid and the financial bid should be submitted Online. |
| 3.      | **EMD (if applicable)**: The tenderer should submit an EMD amount through RTGS/NEFT. The Technical Bid without EMD would be considered as UNRESPONSIVE and will not be accepted. The EMD will be refunded without any interest to the unsuccessful bidders after the award of contract. Refer to Schedule (at page 1 of this document) for its actual place of submission. |
| 4.      | **Refund of EMD**: The EMD will be returned to unsuccessful Tenderer only after the Tenders are finalized. In case of successful Tenderer, it will be retained till the successful and complete installation of the equipment. |
| 5.      | **Opening of the tender**: The online bid will be opened by a committee duly constituted for this purpose. Online bids (complete in all respect) received along with EMD (if applicable) will be opened as mentioned at “Annexure: Schedule” in presence of bidders representative if available. Only one representative will be allowed to participate in the tender opening. Bid received without EMD (if applicable) will be rejected straight way. The technical bid will be opened online first and it will be examined by a technical committee (as per specification and requirement). The financial offer/bid will be opened only for the offer/bid which technically meets all requirements as per the specification, and will be opened in the presence of the vendor’s representatives subsequently for further evaluation. The bidders if interested may participate on the tender opening Date and Time. The bidder should produce authorization letter from their company to participate in the tender opening. |
| 6.      | **Acceptance/ Rejection of bids**: The Committee reserves the right to reject any or all offers without assigning any reason. |
| 7.      | **Pre-qualification criteria**:  
(i) Bidders should be the manufacturer / authorized dealer. Letter of Authorization from original equipment manufacturer (OEM) on the same and specific to the tender should be enclosed.  
(ii) An undertaking from the OEM is required stating that they would facilitate the bidder on a regular basis with technology/product updates and extend support for the warranty as well. (Ref. Annexure-II)  
(iii) OEM should be internationally reputed Branded Company.  
(iv) Non-compliance of tender terms, non-submission of required documents, lack of clarity of the specifications, contradiction between bidder specification and supporting documents etc. may lead to rejection of the bid.  
(v) In the tender, either the Indian agent on behalf of the Principal/OEM or Principal/OEM itself can bid but both cannot bid simultaneously for the same item/product in the same tender.  
(vi) If an agent submits bid on behalf of the Principal/OEM, the same agent shall not submit a bid on behalf of another Principal/OEM in the same tender for the same item/product. |
| 8.      | **Performance Security**: The supplier shall require to submit the performance security in the form of irrevocable bank guarantee issued by any Indian Nationalized Bank for an amount which is stated at page #1 of the tender document within 21 days from the date of receipt of the purchase order/LC and should be kept valid for a period of 60 days beyond the date of completion of warranty period. |
| 9.  | **Force Majeure:** The Supplier shall not be liable for forfeiture of its performance security, liquidated damages or termination for default, if and to the extent that, it’s delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.  
   - For purposes of this Clause, "Force Majeure" means an event beyond the control of the Supplier and not involving the Supplier's fault or negligence and not foreseeable. Such events may include, but are not limited to, acts of the Purchaser either in its sovereign or contractual capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.  
   - If a Force Majeure situation arises, the Supplier shall promptly notify the Purchaser in writing of such conditions and the cause thereof. Unless otherwise directed by the Purchaser in writing, the Supplier shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event. |

<td>10.</td>
<td><strong>Risk Purchase Clause:</strong> In event of failure of supply of the item/equipment within the stipulated delivery schedule, the purchaser has all the right to purchase the item/equipment from the other source on the total risk of the supplier under risk purchase clause.</td>
</tr>
</tbody>
</table>
| 11. | **Packing Instructions:** Each package will be marked on three sides with proper paint/indelible ink, the following:  
   i. Item Nomenclature  
   ii. Order/Contract No.  
   iii. Country of Origin of Goods  
   iv. Supplier’s Name and Address  
   v. Consignee details  
   vi. Packing list reference number |
| 12. | **Delivery and Documents:**  
   Delivery of the goods should be made within a maximum of 12 to 16 weeks from the date of the opening of LC. Within 24 hours of shipment, the supplier shall notify the purchaser and the insurance company by cable/telex/fax/e mail the full details of the shipment including contract number, railway receipt number/ AAP etc. and date, description of goods, quantity, name of the consignee, invoice etc. The supplier shall mail the following documents to the purchaser with a copy to the insurance company:  
   1. 4 Copies of the Supplier invoice showing contract number, goods’ description, quantity  
   2. unit price, total amount;  
   3. Insurance Certificate if applicable;  
   4. Manufacturer's/Supplier's warranty certificate;  
   5. Inspection Certificate issued by the nominated inspection agency, if any  
   6. Supplier’s factory inspection report; and  
   7. Certificate of Origin (if possible by the beneficiary);  
   8. Two copies of the packing list identifying the contents of each package.  
   9. The above documents should be received by the Purchaser before arrival of the Goods (except where the Goods have been delivered directly to the Consignee with all documents) and, if not received, the Supplier will be responsible for any consequent expenses. |
| 13. | **Delayed delivery:** If the delivery is not made within the due date for any reason, the Committee will have the right to impose penalty 1% per week and the maximum deduction is 10% of the contract value/ price. |
| 14. | **Prices:** The price should be quoted in net per unit (after breakup) and must include all packing and delivery charges. The offer/bid should be exclusive of taxes and duties, which will be paid by the purchaser as applicable. However the percentage of taxes & duties shall be clearly indicated. The price should be quoted without custom duty and excise duty, since IIT Delhi is exempted from payment of Excise Duty and is eligible for concessional rate of custom duty. Necessary certificate will be issued on demand. |
In case of imports, the price should be quoted on FOB/FCA origin Airport Basis only. Under special circumstances (e.g. perishable chemicals), when the item is imported on CIF/CIP, please indicate CIF/CIP charges separately up to IIT Delhi indicating the mode of shipment. IIT Delhi will make necessary arrangements for the clearance of imported goods at the Airport/Seaport. Hence the price should not include the above charges. **At any circumstances, it is the responsibility of the foreign supplier to handover the material to our forwarder at the origin airport after completing all the inland clearing. No Ex-Works consignment will be entertained.**

“In case of CIF/CIP shipments, kindly provide the shipment information at least 2 days in advance before landing the shipment along with the documents i.e. invoice, packing list, forwarder Name, address, contact No. in India to save penalty/demurrage charges (imposed by Indian Customs). Otherwise these charges will be recovered from the supplier/Indian Agent.”

15. **Notices:** For the purpose of all notices, the following shall be the address of the Purchaser and Supplier.

**Purchaser:** Prof. Bhim Singh,
Room No. II-118,
Deptt. of Electrical Engineering,
Indian Institute of Technology
Hauz Khas, New Delhi – 110016, Phone:+91 11 2659 1045

**Supplier:** (To be filled in by the supplier)
*(All supplier’s should submit its supplies information as per Annexure-II).*

16. **Progress of Supply:** Wherever applicable, supplier shall regularly intimate progress of supply, in writing, to the Purchaser as under:
1. Quantity offered for inspection and date;
2. Quantity accepted/rejected by inspecting agency and date;
3. Quantity dispatched/delivered to consignees and date;
4. Quantity where incidental services have been satisfactorily completed with date;
5. Quantity where rectification/repair/replacement effected/completed on receipt of any communication from consignee/Purchaser with date;
6. Date of completion of entire Contract including incidental services, if any; and
7. Date of receipt of entire payments under the Contract (In case of stage-wise inspection, details required may also be specified).

17. **Inspection and Tests:** Inspection and tests prior to shipment of Goods and at final acceptance are as follows:
- After the goods are manufactured and assembled, inspection and testing of the goods shall be carried out at the supplier’s plant by the supplier, prior to shipment to check whether the goods are in conformity with the technical specifications attached to the purchase order. Manufacturer’s test certificate with data sheet shall be issued to this effect and submitted along with the delivery documents. The purchaser shall be present at the supplier’s premises during such inspection and testing if need is felt. The location where the inspection is required to be conducted should be clearly indicated. The supplier shall inform the purchaser about the site preparation, if any, needed for installation of the goods at the purchaser’s site at the time of submission of order acceptance.
- The acceptance test will be conducted by the Purchaser, their consultant or other such person nominated by the Purchaser at its option after the equipment is installed at purchaser’s site in the presence of supplier’s representatives. The acceptance test will involve trouble free operation and ascertaining conformity with the ordered specifications and quality. There shall not be any additional charges for carrying out acceptance test. No malfunction, partial or complete failure of any part of the equipment is expected to occur. The Supplier shall maintain necessary log in respect of the result of the test to establish to the entire satisfaction of the Purchaser, the successful completion of the test specified.
- In the event of the ordered item failing to pass the acceptance test, a period not exceeding one week will be given to rectify the defects and clear the acceptance test, failing which the Purchaser reserve the right to get the equipment replaced by the Supplier at no extra cost to the Purchaser.
- Successful conduct and conclusion of the acceptance test for the installed goods and equipment shall also be the responsibility and at the cost of the Supplier.

### 18. Resolution of Disputes

The dispute resolution mechanism to be applied pursuant shall be as follows:

- In case of Dispute or difference arising between the Purchaser and a domestic supplier relating to any matter arising out of or connected with this agreement, such disputes or difference shall be settled in accordance with the Indian Arbitration & Conciliation Act, 1996, the rules thereunder and any statutory modifications or re-enactments thereof shall apply to the arbitration proceedings. The dispute shall be referred to the Director, Indian Institute of Technology (IIT) Delhi and if he is unable or unwilling to act, to the sole arbitration of some other person appointed by him willing to act as such Arbitrator. The award of the arbitrator so appointed shall be final, conclusive and binding on all parties to this order.

- In the case of a dispute between the purchaser and a Foreign Supplier, the dispute shall be settled by arbitration in accordance with provision of sub-clause (a) above. But if this is not acceptable to the supplier then the dispute shall be settled in accordance with provisions of UNCITRAL (United Nations Commission on International Trade Law) Arbitration Rules.
- The venue of the arbitration shall be the place from where the order is issued.

### 19. Applicable Law

The place of jurisdiction would be New Delhi (Delhi) INDIA.

### 20. Right to Use Defective Goods

If after delivery, acceptance and installation within the guarantee and warranty period, the operation or use of the goods proves to be unsatisfactory, the Purchaser shall have the right to continue to operate or use such goods until rectifications of defects, errors or omissions by repair or by partial or complete replacement is made without interfering with the Purchaser’s operation.

### 21. Supplier Integrity

The Supplier is responsible for and obliged to conduct all contracted activities in accordance with the Contract using state of the art methods and economic principles and exercising all means available to achieve the performance specified in the contract.

### 22. Training

The Supplier is required to provide training to the designated Purchaser’s technical and end user personnel to enable them to effectively operate the total equipment.

### 23. Installation & Demonstration

The supplier is required to do the installation and demonstration of the equipment within one month of the arrival of materials at the IITD site of installation, otherwise the penalty clause will be the same as per the supply of materials.

In case of any mishappening/damage to equipment and supplies during the carriage of supplies from the origin of equipment to the installation site, the supplier has to replace it with new equipment/supplies immediately at his own risk. Supplier will settle his claim with the insurance company as per his convenience. IITD will not be liable to any type of losses in any form.

### 24. Insurance

For delivery of goods at the purchaser’s premises, the insurance shall be obtained by the supplier in an amount equal to 110% of the value of the goods from "warehouse to warehouse" (final destinations) on “All Risks” basis including War Risks and Strikes. The insurance shall be valid for a period of not less than 3 months after installation and commissioning. **In case of orders placed on FOB/FCA basis, the purchaser shall arrange Insurance. If orders placed on CIF/CIP basis, the insurance should be up to IIT Delhi.**

### 25. Incidental services

The incidental services also include:
- Furnishing of 01 set of detailed operations & maintenance manual.
- Arranging the shifting/moving of the item to their location of final installation within IITD premises at the cost of Supplier through their Indian representatives.

26. **Warranty:**
   (i) Warranty period shall be (as stated at page #2 of this tender) from date of installation of Goods at the IITD site of installation. The Supplier shall, in addition, comply with the performance and/or consumption guarantees specified under the contract. If for reasons attributable to the Supplier, these guarantees are not attained in whole or in part, the Supplier shall at its discretion make such changes, modifications, and/or additions to the Goods or any part thereof as may be necessary in order to attain the contractual guarantees specified in the Contract at its own cost and expense and to carry out further performance tests. The warranty should be comprehensive on site.

   (ii) The Purchaser shall promptly notify the Supplier in writing of any claims arising under this warranty. Upon receipt of such notice, the Supplier shall immediately within in 02 days arrange to repair or replace the defective goods or parts thereof free of cost at the ultimate destination. The Supplier shall take over the replaced parts/goods at the time of their replacement. No claim whatsoever shall lie on the Purchaser for the replaced parts/goods thereafter. The period for correction of defects in the warranty period is 02 days. If the supplier having been notified fails to remedy the defects within 02 days, the purchaser may proceed to take such remedial action as may be necessary, at the supplier’s risk and expenses and without prejudice to any other rights, which the purchaser may have against the supplier under the contract.

   (iii) The warranty period should be clearly mentioned. The maintenance charges (AMC) under different schemes after the expiry of the warranty should also be mentioned. The comprehensive warranty will commence from the date of the satisfactory installation/commissioning of the equipment against the defect of any manufacturing, workmanship and poor quality of the components.

   (iv) After the warranty period is over, Annual Maintenance Contract (AMC)/Comprehensive Maintenance Contract (CMC) up to next two years should be started. The AMC/CMC charges will not be included in computing the total cost of the equipment.

27. **Governing Language**
   The contract shall be written in English language. English language version of the Contract shall govern its interpretation. All correspondence and other documents pertaining to the Contract, which are exchanged by the parties, shall be written in the same language.

28. **Applicable Law**
   The Contract shall be interpreted in accordance with the laws of the Union of India and all disputes shall be subject to place of jurisdiction.

29. **Notices**
   - Any notice given by one party to the other pursuant to this contract/order shall be sent to the other party in writing or by cable, telex, FAX or e mail and confirmed in writing to the other party’s address.
   - A notice shall be effective when delivered or on the notice’s effective date, whichever is later.

30. **Taxes**
   Suppliers shall be entirely responsible for all taxes, duties, license fees, octroi, road permits, etc., incurred until delivery of the contracted Goods to the Purchaser. However, GST etc, in respect of the transaction between the Purchaser and the Supplier shall be payable extra, if so stipulated in the order.

   For research purpose(s) ONLY, 5% GST will be applicable with concessional GST Certificate.

31. **Duties**
   IIT Delhi is exempted from paying custom duty under notification No.51/96 (partially or full) and necessary “Custom Duty Exemption Certificate” can be issued after providing following information and Custom Duty Exemption Certificate will be issued to the shipment in the name of the Institute, (no

IIT Delhi is partially exempted from paying GST and necessary GST Exemption Certificate will be provided for which following information are required.

b) Quotation with details of Basic Price, Rate, Tax & Amount on which ED is applicable
c) Supply Order Copy
d) Proforma-Invoice Copy.

32. **Agency Commission**: Agency commission if any will be paid to the Indian agent in Rupees on receipt of the equipment and after satisfactory installation. Agency Commission will not be paid in foreign currency under any circumstances. The details should be explicitly shown in Tender even in case of Nil commission. The tenderer should indicate the percentage of agency commission to be paid to the Indian agent.

33. **Payment**:  
(i) For imported items Payment will be made through irrevocable Letter of Credit (LC) Cash Against Documents (CAD)/Against delivery/after satisfactory installation by T.T. Letter of Credit (LC) will be established in favour of foreign Supplier after the submission of performance security. The letter of credit (LC) will be established on the exchange rates as applicable on the date of establishment. For Imports, LC will be opened for 100% FOB/CIF value. 80% of the LC amount shall be released on presentation of complete and clear shipping documents and 20% of the LC amount shall be released after the installation and demonstration of the equipment at the INST site of installation in faultless working condition for period of 60 days from the date of the satisfactory installation and subject to the production of unconditional performance bank guarantee as specified in Clause 8 of tender terms and conditions.

(ii) For Indigenous supplies, 100% payment shall be made by the Purchaser against delivery, inspection, successful installation, commissioning and acceptance of the equipment at IITD in good condition and to the entire satisfaction of the Purchaser and on production of unconditional performance bank guarantee as specified in Clause 9 of tender terms and conditions.

(iii) Indian Agency commission (IAC), if any shall be paid after satisfactory installation & commissioning of the goods at the destination at the exchange rate prevailing on the date of negotiation of LC documents, subject to DGS&D registration for restricted items.

(iv) All the bank charges within India will be borne by the Institute and outside India will be borne by the Supplier.

34. **User list**: Brochure detailing technical specifications and performance, list of industrial and educational establishments where the items enquired have been supplied must be provided. (Ref. Annexure-III)

35. **Manuals and Drawings**  
(i) Before the goods and equipment are taken over by the Purchaser, the Supplier shall supply operation and maintenance manuals. These shall be in such details as will enable the Purchaser to operate, maintain, adjust and repair all parts of the works as stated in the specifications.

(ii) The Manuals shall be in the ruling language (English) in such form and numbers as stated in the contract.

(iii) Unless and otherwise agreed, the goods equipment shall not be considered to be completed for the purposes of taking over until such manuals and drawing have been supplied to the Purchaser.

36. **Application Specialist**: The Tenderer should mention in the Techno-Commercial bid the availability and names of Application Specialist and Service Engineers in the nearest regional office. (Ref. to Annexure-III)

37. **Site Preparation**: The supplier shall inform to the Institute about the site preparation, if any, needed for the installation of equipment, immediately after the receipt of the purchase order. The supplier
must provide complete details regarding space and all the other infrastructural requirements needed for the equipment, which the Institute should arrange before the arrival of the equipment to ensure its timely installation and smooth operation thereafter. The supplier shall visit the Institute and see the site where the equipment is to be installed and may offer his advice and render assistance to the Institute in the preparation of the site and other pre-installation requirements.

<table>
<thead>
<tr>
<th>38.</th>
<th><strong>Spare Parts</strong></th>
</tr>
</thead>
</table>
| The Supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the Supplier:  
  ii. Such spare parts as the Purchaser may elect to purchase from the Supplier, providing that this election shall not relieve the Supplier of any warranty obligations under the Contract; and  
  iii. In the event of termination of production of the spare parts:  
  iv. Advance notification to the Purchaser of the pending termination, in sufficient time to permit the Purchaser to procure needed requirements; and  
  v. Following such termination, furnishing at no cost to the Purchaser, the blueprints, drawings and specifications of the spare parts, if requested. |

Supplier shall carry sufficient inventories to assure ex-stock supply of consumable spares for the Goods, such as gaskets, plugs, washers, belts etc. Other spare parts and components shall be supplied as promptly as possible but in any case within six months of placement of order.

| 39. | **Defective Equipment**: If any of the equipment supplied by the Tenderer is found to be substandard, refurbished, un-merchantable or not in accordance with the description/specification or otherwise faulty, the committee will have the right to reject the equipment or its part. The prices of such equipment shall be refunded by the Tenderer with 18% interest if such payments for such equipment have already been made. All damaged or unapproved goods shall be returned at suppliers cost and risk and the incidental expenses incurred thereon shall be recovered from the supplier. Defective part in equipment, if found before installation and/or during warranty period, shall be replaced within 45 days on receipt of the intimation from this office at the cost and risk of supplier including all other charges. In case supplier fails to replace above item as per above terms & conditions, IIT Delhi may consider "Banning" the supplier.

<table>
<thead>
<tr>
<th>40.</th>
<th><strong>Termination for Default</strong></th>
</tr>
</thead>
</table>
| The Purchaser may, without prejudice to any other remedy for breach of contract, by written notice of default sent to the Supplier, terminate the Contract in whole or part:  
  i. If the Supplier fails to deliver any or all of the Goods within the period(s) specified in the order, or within any extension thereof granted by the Purchaser; or  
  ii. If the Supplier fails to perform any other obligation(s) under the Contract.  
  iii. If the Supplier, in the judgment of the Purchaser has engaged in corrupt or fraudulent practices in competing for or in executing the Contract. |

- For the purpose of this Clause:
  i. "**Corrupt practice**" means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution.
  ii. "**Fraudulent practice**" means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Borrower, and includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the Borrower of the benefits of free and open competition;”

- In the event the Purchaser terminates the Contract in whole or in part, the Purchaser may procure, upon such terms and in such manner, as it deems appropriate, Goods or Services similar to those undelivered, and the Supplier shall be liable to the Purchaser for any excess costs for such similar

Make: GROWATT/ZEVER/SUNGROW/ SMA/KACO/XENTRAX/OPS/PPS/DB POWER/Equivalent approved

**Specifications of the Booster:**
A DC-DC voltage booster (boost converter) is needed to maintain the output voltage of 450 V alongwith for tracking maximum power point. Efficiency must be greater than 90%.

Make: STATCON ENERGIAA/ Equivalent approved

**Cable and Accessories:**

1. Cables should be FRLS PVC insulated copper conductor armoured MV Cables up to 1100 Volts grade as per IS: 1554/armoured PVC sheathed cables. Cable should be bright annealed 99% pure copper conductor, conductor shall be of electrolytic copper conforming to IS: 8130.

2. DC cables should be 1C x 4sqmm flexible copper class-5, TUV certified solar cable make poly core.

3. Minimum size of the cable as following:

4. Array to junction box / PCU: 1 core x 4/6 sq mm stranded copper cables.

5. PCU to LT AC DB and metering panel: 2 core x 16 sq mm staranded copper XLPE armoured cables.

6. LTACDB and metering panel to main Grid DB : 3.5/4 core XLPE as per requirement stranded armoured cable.

**Earthing and protection:**

1. The PV array structure shall be grounded properly using adequate (min 3 Nos.) number of connecting system. All metal casing / shielding of the plant shall be thoroughly grounded to ensure safety of the power plant. Earthing resistance shall be less than 5.0 ohms for individual anode and less than 1.0 Ohms for Grid in line with IE rules and as per IS:3043 code of practice for earthing.

2. GI strip of minimum size 5mm X 25mm shall be used for carrying earthing connection.

3. Proper earthing pit shall be made at locations approved by IIT Delhi.

**Lightening Arrester:**
To protect the system including use of Metal Oxide Varistors from heavy surge of lightes a suitable arrester to be provided with separate earthing system, so that induced transient find an alternate route to earth. Protection shall meet the safety rules.

**SPV Panels Cleaning Facilities:**
Bidder shall provide dusting & Water washing facilities, all necessary accessories for
dusting shall be provided. Bidder shall also extend water line for the roof top of single
storied building and shall provide necessary rubber hose etc for washing the panels.

**LT Panel & AC Distribution Board:**
Power conditioning unit converts DC energy produced by solar array to AC energy. The AC power
output of the inverter shall be fed to the AC Distribution Board (metering panel & isolation panel)
which also houses energy meter. The 230 V AC +10% output of the isolation panel is fed to the
building load. AC energy is then synchronized with the grid power is fed into the system on
continuous basis.

**GENERAL:**

1. The scope of these specifications includes all civil works connected with the construction
   of buildings and other facilities described in the scope of work under special conditions
   of contract. CPWD specifications and relevant code may be followed for any work not
   covered under these specifications.

2. All materials which may be used in the work shall be of standard quality manufactured
   by renowned concerns conforming to Indian Standard Specifications (Latest Edition) or
   equivalent and shall bear I.S.I. mark as far as possible unless otherwise approved by the
   PFC.

3. The contractor shall get all materials approved by the Engineer-in-Charge prior to
   procurement of the same in bulk and also before using in the works. For all major items/
   materials used in the works (irrespective of the brand of material or proven source)
   necessary laboratory tests shall be conducted/ or test certificates from the manufacture
   shall be furnished by the contractor to ensure conformation of the material to
   specifications. The tests shall be conducted as directed by Engineer-in-Charge and in
   approved laboratory(s). The costs of all tests shall be borne by contractor. Additionally,
   for testing of materials like concrete, bricks, aggregates etc. which require continuous
   testing, contractor at his own cost and initiative, shall arrange for facilities for testing at
   site itself to ensure proper quality control at work site. Frequency of these testing shall
   be as per standard practice being followed in CPWD or as directed by PFC. A separate
   register shall be maintained indicating the details tests conducted reports from
   laboratories and tests conducted/ result at work site.

4. The Engineer-in-Charge shall have the right to determine whether all or any of the
   materials are suitable for incorporation in the work. Any material procured or brought to
   site and not conforming to specifications and not upto the satisfaction of the Engineer-in-
   Charge shall be rejected and the contractor shall have to remove the same immediately
   from site at his own expenses and without any claim for comprehensive due to such
   rejection.

**PLAIN CONCRETE WORK:**
Providing and laying cement concrete, grade of mix 1:1.5:3 (1 cement : 1.5 coarse sand : 3 Graded
stone aggregate 20mm nominal size), in foundation floors, bed of drains, including ramming, de-
watering, shuttering, shoring, strutting, curing etc. Complete in all respects inclusive of cost of all
labour, materials, tools, tackless etc. as per drawings specifications and direction of Site Engineer.

**REINFORCED CEMENT CONCRETE:**
Providing and laying structure reinforce cement concrete work (1:5:3) conforming to IS :456 (1
cement : 1.5 coarse sand : 3 graded stone aggregate 20mm nominal size)sat all height & depth for
construction beams. Columns, staircase chajja, roof slabs, facia, canopies, fins porch, water tank
etc. including providing centering, sjhuttering, staging scaffolding form work etc compacting with
mechanical vibrator, curing etc. complete in all respects inclusive of cost of all labour, materials.

**BRICK WORK:**
Brick work with bricks of class designation 50 in cement mortar 1:6 (1 cement : 6 coarse sand) at
all heights and depths laid to proper position line, level as per the drawings specifications
Structural Steel Work:
All steel members of the proposed structure for SPV system to be galvanized minimum 80 Microns.

Steel:
Mild steel reinforcement for cement concrete work shall conform to IS:1786 latest edition and shall be grade Fe500/415 as mentioned in the item description. The bars shall be procured from reputed / established rolling mills such as TATA Steel, SAIL, RINL or any other equivalent approved supplier.

HCR/CRS Bars:
HCR (high corrosion resistant) corrosion resistant bars shall conform to IS-1786 latest edition and shall have a grade of Fe500. The bars shall be procured from reputed / established rolling mills such as SAIL, RINL, TATA.

Structural Steel:
Structural steel sections & plates shall conform to Grade A of IS 2062 (latest edition). Steel shall be free from all grease, oil, paint, loose mill scale and rust and shall be free from all defects mentioned in IS 2062 and shall have a smooth uniform finished surface. Contractor shall invariably produce test certificate from the manufacturer certifying the quality and strength of the steel to conform to the requirement of the aforesaid Indian Standards. In absence of such test certificate from the manufacture, test shall be carried out in a test House/Laboratory or University as approved by the Engineer-in-charge and cost of such tests shall be borne by the contractor. Tests shall be carried out as per IS: 1599, 1608 and 1786 (latest edition).

Tubular Steel Truss:
Steel tubes for tubular truss shall conform to the latest editions of IS: 1161. Tubes shall be clean finished and reasonably free from scale. They shall be free from cracks, surface flaws, laminations and other defects. The truss shall be as per drawing. Each truss may have two or three parts which shall be assembled properly and erected over columns. Contractor shall handle the truss carefully and observe all necessary precautions during erection of truss over columns. If any damage is caused during erection, the same shall be made good by the Contractor at his own cost. The truss shall be fixed to the columns with anchor plate, anchor bolts, etc. properly grouted into the columns as per drawing. Tubular purlins and bracing having splices welded at the ends, shall be assembled an erected at the locations as shown in drawings and directed by the Site Engineer. All reinforcement bars shall be clean and free from dirt, oil, paints, grease, mill scales and loose rust. Bars available in coil shall be uncoiled and properly straightened to the satisfaction of the Engineer-in-charge at no extra cost to the owner.

FINISHING:
Providing 15 mm thick plaster to internal & external walls at all heights/depths with cement mortar 1:6 (1cement : 6 fine sand) finished smooth / rough including raking out joints, rounding off and chamfering corners, making drip course molding, roughening of brick surface, curing for etc. complete as per specifications. Supplying and applying two coats of acrylic washable distemper f approved brand, of required shade over a coat of distemper primer over plastered wall surface, including preparation of surface with putt, sand papering, scaffolding etc. complete in all respects inclusive of cost of all labour, materials tools tackles etc. as per manufacturer’s recommendations, specification and direction of Site Engineer.

I have also enclosed all relevant documents in support of my claims, (as above) in the following pages.

Signature of Bidder
